

<b>1. Course Name</b>
computer
<b>2. Course Code:</b>
WNR-21-04
<b>3. Semester / Year :</b>
First Semester 2025 – 2026
<b>4. Date of preparation of description:</b>
21/ 9 / 2025
<b>5. Available Forms of Attendance:</b>
Physical Lectures
<b>6. Number of Hours (Total) Number of Units (Total)</b>
Number of Weekly Hours 2 Semester 30 Number of Units 2
<b>7. Course administrator name</b>
Name: Mohamed Yahya Makki Email: mohammed.yahya@uowa.edu.iq
<b>8. Course Objectives</b>
<p><b>At the end of the course, the student will be able to:</b></p> <ol style="list-style-type: none"> <li>1- Understand the basic principles of computer science.</li> <li>2- Understands how computers work and the most important programs</li> <li>3- Define basic terms in computer science</li> <li>4- Explains the generations of the calculator and how it evolved</li> <li>5- How the most important computer programs work</li> <li>6- Generations of Calculator and How to Choose a Computer</li> <li>7- Getting to know your flower program and its most important terms</li> <li>8- Learn about Excel and how to create functions</li> <li>9- Benefits of the Rose Program in Practical Life</li> <li>10- The benefits of laziness in practical life .</li> <li>11- Artificial Intelligence and How to Deal with Intelligence Programs</li> </ol>
<b>9. Teaching and Learning Strategies</b>
<ul style="list-style-type: none"> <li>• Theoretical Lectures</li> <li>• Discussion</li> <li>• Reports</li> </ul>

Course  
Description Form  
for the Academic  
Year 2025-2026

**Course  
Description  
Appendix**

<b>10. Course Structure</b>			
<b>Evaluation Method</b>	<b>Learning method</b>	<b>Unit Name or Subject</b>	<b>Required Learning Outcomes</b>
Quizzes, student participation in the lecture,	Lecture and discussion	Basic Principles of Computer Science	Understanding and explaining basic principles of scientific Calculator
Quizzes, student participation in the lecture,	Lecture and discussion	Computer Science	Explanation of the mechanism of computer work
Quizzes, student participation in the lecture,	Lecture and discussion	Software	Learn about the most common computer programs
Quizzes, student participation in the lecture,	Lecture and discussion	Word Program	Uses and their tools and important uses of the flowchart
Quizzes, student participation in the lecture,	Lecture and discussion	Word Tools	Word processing tools and how to print a document
Quizzes, student participation in the lecture,	Lecture and discussion	Quotient breaks	How to Punctuate Page and Cross-sectional interval

<b>Linking Student Learning Outcomes to Program Objectives (SLO)</b>	<b>Learning Outcomes for the Course (Learning Outcomes)</b>	<b>Program Objectives</b>
--	---	---------------------------

Quizzes, student participation in the lecture,	Lecture and discussion	Excel	Excel Introduction Program
Quizzes, student participation in the lecture,	Lecture and discussion	Medicines diseases	Determining the use of E
Quizzes, student participation in the lecture,	Lecture and discussion	Excel Functions	The most important Ex in the largest and smaller
Quizzes, student participation in the lecture,	Lecture and discussion	Artificial Intelligence	Artificial Intelligence : Create Software
Quizzes, student participation in the lecture,	Lecture and discussion	Artificial Intelligence Software	The most important intelligence programs
Quizzes, student participation in the lecture,	Lecture and discussion	Fluid Medications	How AI software works
Quizzes, student participation in the lecture,	Lecture and discussion	Benefits of Software	What to benefit from intelligence

These outputs build the student's knowledge base and scientific language. A nurse cannot possess the "highest level of awareness" (the overall goal) without a deep	✓ Understanding the basic principles of computer science	<p style="text-align: center;"><b>Knowledge</b></p> <p style="text-align: center;"><b>EPSLO-1:</b> Demonstrate the highest level of understanding and</p>
---	--	---

Quizzes, student participation in the lecture,	Lecture and discussio	Khwarmia	Explaining how the algo in computer and artificia
Quizzes, student participation in the lecture,	Lecture and discussio	The Evolution of Computer	What after a hundred un computer work

## 11. Course Evaluation

Grade Standard		Final Evaluation 20%	Cluste 80%
Privilege (90-100) Very Good (80-Less than 90) Good (70-under 80) Medium (60-under 70) Acceptable (50-less than 60) Weak (less than 50)	Grade %	Grade Distribution	Grade %
	5 %	Daily exams	5 %
	5%	Seminars	5%
	5%	Reports	-
	5 %	Share	-
	-	Volunteer work	70%

## 12. Learning and Teaching Resources

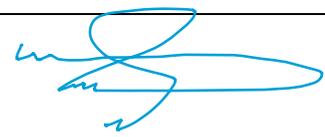

There isn't any	Textbo
<p>Davis Medication Guide for Nurses Nineteenth Edition</p> <p>1. by <a href="#">Sue Centans</a>, <i>Eric Barendsen, and Carst Schulte (2018). Teaching Computer Science</i></p> <p><i>Perspectives on Teaching and Learning in Scho</i></p>	Key R
